Additional Information

Description:
As a student-run publication, we aim to educate and entertain the masses in the areas of television, film, sports, music and fashion. Through articles and reviews of student-led projects, sports events, award shows, albums, major movie and television releases, and many more we hope to bring some of the entertainment industry to Syracuse University. And, overall, create a publication that means something to the people that read it. As students who have an interest in the entertainment industry, we were looking for clubs and organizations to join that reflected that interest, but most focused on the news industry. We wanted to bring our interest of other aspects of the entertainment industry to Syracuse University and thought that a magazine was the best way to achieve that goal. We hope to create an environment not only for Newhouse students, but for any students on campus with an interest. And, most of all, it will be a fun and creative way to explore that interest and passion.
